

23 JUL 1976

DIRECTOR OF CENTRAL INTELLIGENCE
SECURITY COMMITTEE
RESEARCH AND DEVELOPMENT SUBCOMMITTEE

MEMORANDUM FOR: Members R&D Subcommittee
Executive Secretary, Security Committee

SUBJECT : Transmittal of Reports for Review and
Additional Agenda Items for Next Meeting
Designation of Chairman, R&D Subcommittee

1. Attached are two reports for your review prior to the next meeting that will be agenda items:

a. White Paper on Sales of Technical Surveillance Countermeasures Equipment to Non-U.S. Government Users, May 1976; Audio Countermeasures Working Group. TSCS.

This paper is an excellent collection of ideas regarding the reasons for and the possibilities for controlling TSCM equipment. We will be discussing this problem as it impacts on R&D and related procurement actions.

b. Report on TEMPEST Hazards of Office Equipments (U), 21 May 1976; Special Committee on Compromising Emanations, United States Communications Security Board.

This report was prepared by the SCOCE at our request and provides summary guidance as to the TEMPEST hazard associated with typical office equipments and lists available related test reports. We will review this report to see if it satisfactorily fulfills our original request.
